

**G.** A graph of the function  $y = f(x)$  is sketched on the axes below:

The value of  $\int_{-1}^1 f(x^2 - 1) dx$  equals

- (a)  $\frac{1}{4}$ ,
- (b)  $\frac{1}{3}$ ,
- (c)  $\frac{3}{5}$ ,
- (d)  $\frac{2}{3}$ .
