

Famous Quotes

Match the famous quote to the famous person

1	Here I am at the turn of the millennium and I'm still the last man to have walked on the moon, somewhat disappointing.
2	A man who dares to waste one hour of time has not discovered the value of life.
3	I think; therefore I am.
4	In mathematics the art of proposing a question must be held of higher value than solving it.
5	Only two things are infinite, the universe and human stupidity, and I'm not sure about the former.
6	Computer science is no more about computers than astronomy is about telescopes.
7	Mathematics is a place where you can do things which you can't do in the real world.
8	I have not failed. I've just found 10,000 ways that won't work
9	We cannot teach people anything; we can only help them discover it within themselves.
10	Do not worry about your difficulties in Mathematics. I can assure you mine are still greater.
11	It is not the mountain we conquer but ourselves.
12	Science is not only a disciple of reason but, also, one of romance and passion.

Georg Cantor	A
Eugene Cernan	B
Charles Darwin	C
Rene Descartes	D
Edsger Dijkstra	E
Marcus du Sautoy	F
Thomas Edison	G
Albert Einstein	H
Albert Einstein	I
Galileo Galilei	J
Stephen Hawking	K
Edmund Hilary	L

13	We choose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard
14	I have a dream that my four little children will one day live in a nation where they will not be judged by the colour of their skin, but by the content of their character
15	Mathematics is a game played according to certain simple rules with meaningless marks on paper.
16	Equipped with his five senses, man explores the universe around him and calls the adventure Science.
17	Houston, we've had a problem.
18	Everyone knows what a curve is, until he has studied enough mathematics to become confused through the countless number of possible exceptions.
19	We can lick gravity, but sometimes the paperwork is overwhelming.
20	Science is a differential equation. Religion is a boundary condition.
21	Somewhere, something incredible is waiting to be known.
22	If I have seen further than others, it is by standing upon the shoulders of giants.
23	Wise men speak because they have something to say; Fools because they have to say something.
24	The definition of a good mathematical problem is the mathematics it generates rather than the problem itself.

David Hilbert	M
Edwin Hubble	N
John F Kennedy	O
Martin Luther King Jr.	P
Felix Klein	Q
Jim Lovell	R
Isaac Newton	S
Carl Sagan	T
Alan Turing	U
Werner Von Braun	V
Andrew Wiles	W
Plato	X

Famous Quotes - Answers

Match the famous quote to the famous person

1	Here I am at the turn of the millennium and I'm still the last man to have walked on the moon, somewhat disappointing.		Georg Cantor	A
2	A man who dares to waste one hour of time has not discovered the value of life.		Eugene Cernan	B
3	I think; therefore I am.		Charles Darwin	C
4	In mathematics the art of proposing a question must be held of higher value than solving it.		Rene Descartes	D
5	Only two things are infinite, the universe and human stupidity, and I'm not sure about the former.		Edsger Dijkstra	E
6	Computer science is no more about computers than astronomy is about telescopes.		Marcus du Sautoy	F
7	Mathematics is a place where you can do things which you can't do in the real world.		Thomas Edison	G
8	I have not failed. I've just found 10,000 ways that won't work		Albert Einstein	H
9	We cannot teach people anything; we can only help them discover it within themselves.		Albert Einstein	I
10	Do not worry about your difficulties in Mathematics. I can assure you mine are still greater.		Galileo Galilei	J
